

Telex Communications,

Our association with you over the course of the past 4 years has been remarkably positive. The exposure we've gained in the business community by virtue of economical advertising and news articles in your publications has enhanced our street presence and success.

Your multiple publications and inventive methods of delivery have provided us a variety of ways of touching the customers and service providers who are key to our growth.

Thanks for your help.

Sincerely

A handwritten signature in black ink that reads "Bud Willson".
